ABOUT KRISTOFF

Established in 2004, Kristoff has earned the reputation as one of the finest premium cigar manufacturers in the industry. At Kristoff, our focus is on quality, consistency and availability. We use only the highest quality double and triple fermented premium tobaccos from around the world, which are artfully blended so as to satisfy the palate of the most discriminating cigar aficionado. Our cigars are made using a centuries old bunching technique called "entubar". This skillful rolling technique creates a more firmly packed cigar which allows air to travel between all of the leaves, carrying more aromatics/flavors to the palate. Every cigar at Kristoff is individually draw tested to ensure a well constructed cigar that delivers a perfect draw each and every time.
